

I think that my community, the public in general, and I would be UNDERSERVED by public broadcasting if K-LOVE were replaced by an LPFM station. I believe K-LOVE serves the public interest by playing music that the whole family (i.e. my 4 year old daughter) can safely listen to without fear that the content will be sexual, violent, or otherwise unfit for a child. As a resident of Olive Branch, MS, I appreciate that K-LOVE is a station that reflects the values of my community and the values that I hold - those values are just clean fun & music. You can't seem to find clean fun/music on the public airwaves in America much these days.
